

Minutes of the Leverett Board of Health Leverett Town Hall  
Meeting Date: 03/17/2008 Meeting Started: 7:10 PM  
Board Members Present: Fair, Hillman, Dauchy

1. Richie Roberts (for Jenny Roberts owner) present to request a 1 year extension to **DSCP C2005-04-04A**. Site conditions require the foundation to be built before the Septic system is installed. Request granted and noted on folder on DSCP form.
2. Issued **Installer Permit # 08-04** to R. H. Roberts Inc. Received check # 5156 for \$100.
3. **163 Rattlesnake Gutter Rd.** owner Jono Neiger present to discuss setback requirements to septic tank. He would like to remodel and extend kitchen wall closer to the septic tank. Setbacks were discussed but first owner will need to locate the septic tank.
4. At the request of a Church member (R. Brazeau) called and asked what would be required for the Congregational Church to cook and serve breakfast on Easter to the congregation. The Board discussed having a certified food handler present but thought state regs may be less restrictive for a single event. The Board felt this needs to be clarified.
5. Up coming Planning Board hearing was mentioned and briefly discussed. Board wants to know if the Planning Board intends to make any zoning changes that would allow placing septic components on another owners property or allow shared septic systems. Fair plans to attend and will report back.

Meeting adjourned at 8:55 PM
